**Optimization's System Integrator a Finalist for *Test and Measurement World's*
2012 Test Engineer of the Year Award**

HOUSTON, TX – Optimization Technology, Inc. is pleased to announce that Tim Carroll, Senior Systems Integrator in the Optimization Houston office, is a finalist for the 2012 Test Engineer of the Year. The award is given by *Test and Measurement World* magazine on a yearly basis, and “honors the vital contributions that test engineers make to the quality of electronic components and systems,” according to www.tmworld.com.

The award will be presented at [DesignCon 2012](#) in Santa Clara, CA. The winning engineer will receive a \$10,000 grant, donated by [National Instruments](#), for the engineering school of his or her choice.

You can learn more about Tim's accomplishments as a test engineer and vote for him [here](#).

[Optimization Technology, Inc.](#), a global design, engineering and fabrication company headquartered in Rochester, New York, provides industrial and manufacturing applications from concept to completion. Optimization has several locations in the U.S., including corporate headquarters in Rush, NY, development and fabrication facilities in Rochester, and other engineering offices in Houston, Syracuse, Boston, Philadelphia, Denver and Minneapolis.
